### GROUP F

Sweden	36
Slovenia	37
Switzerland	38
Poland	39

# OFFICIAL SQUAD – REPLACEMENT PROCEDURE

## Basic Idea

The use of an “Official Squad” by each delegation allows the participating nations to replace a **maximum of 6 players throughout the entire tournament in accordance with the system explained below**. This option eases the pressure on the participants, especially in the case of injuries.

In addition to this, the listing of a final squad prior to the commencement of the championship is in the interest of the work of the media and press, as well as all those involved in promotion and public relation activities.

## Technical Terms

- **Official Squad:** Total number of players (maximum 28) announced by the National Federations as their basis group for selecting the team participating in a European Championship.
- **Official Delegation:** Players (maximum 16) and Officials (maximum 8) announced at the Technical Meeting who will participate in the tournament.

## System and Procedure

1. An Official Squad with a total number of 28 (or less) players, including the assignment of player numbers, must be announced by **5 December 2019, 12:00hrs** by all participating delegations. The contingent of 28 players is the official / final squad of players of each participating nation. A maximum of 16 players from the original 28 will be announced at the first technical meeting one day prior to the start of the tournament. Please be aware that a preliminary squad list should have been announced by the participating federations by **16 September 2019, 12:00hrs** at the latest.
2. A maximum of 2 players can be replaced by two new players from the original contingent of 28 (or less) during the preliminary round, a maximum of 2 players can be replaced during the main round and 2 players during the semi-finals, placement matches as well as the finals. If a replaced player returns, this counts as another replacements and is added to the total number of replacements. The date of the replacement can be chosen freely by the delegation (everyday replacement option). Each replacement shall be available at the EHF office **by 9:00hrs. on the respective match day**. The following procedure applies:
  - The EHF shall be informed in writing about the details of the replacing players (using the official form for replacements, presenting the paper officially signed and stamped). The players' information should reflect the information on the original “Official Squad” list.
  - The passports of the new players have to be presented by the team guide, team official, etc., to an EHF delegate or the EHF Venue Manager in original or by fax. If a copy of the passport is sent by fax, the original passport is to be presented to the EHF delegate of the respective match, 1 hour prior to the throw-off at the latest (alternatively if the replacement is taking place on a day of a Technical Meeting at the Technical Meeting on the respective day).
  - After the replacements are confirmed by the EHF (final approval to be granted together with the original passport presented), the new players will be added to the official match report of the next playing day, the replaced players will be removed and all parties involved (media, statistics) will be informed accordingly.

**Players allowed per match:** All players announced at the Technical Meeting (max. 16)

**Officials allowed per match:** 4 out of max. 8 officials announced at the Tech. Meeting

## Further Specification

- Even if less than 28 players are entered by the deadline announced by the EHF this team is the final squad. As a consequence all players eligible to participate in the EHF EURO are known as of the date stipulated.
- A replaced player can return at a later stage of the tournament, in which case the conditions referred to in point 2 apply.
- If a suspended player (certain period of time or number of matches) is replaced, the new player is only eligible to participate once the suspension period has expired.
- Additional costs arising from the replacement or the additional announcement of players shall be borne by the participating nation, apart from the costs of local transport - including the transport from and to the arrival airport, which is provided by the OC's.

## Additional Announcement – Procedure and Handling

- In case a participating nation nominates 15 players or less in their official delegation, maintain the right to announce one additional player from the contingent named in their official squad.
- Such additional announcements shall be forwarded to the EHF in writing (using the official form for additional announcements, presenting the paper officially signed and stamped) by 9:00 hrs. at the latest of the respective match day to the EHF championship office.
- The passport has to be presented (by team guide, team official, etc.) to an EHF delegate or an EHF Venue Manager in the EHF championship office in original or by fax. In case of a fax copy of the passport is presented by the deadline stipulated, the original passport shall be presented subsequently to the EHF delegates of the respective match, 1 hour prior to the throw-off at the latest.
- After the additional announcement is accepted (final approval to be granted together with the original passport presented) by the respective EHF official, the player will be added to the official match report of the respective day and all parties involved (media, statistics) will be informed accordingly.
- While filling in the forms, all national federations are kindly requested to type the **family name in capital letters** and the first name and other information in regular / small letters.
