5.5 Upgrade to the EHF Champions League Men

5.5.1 Right to apply for an upgrade

All National Federations except the National Federation ranked number one (1) of the EHF European League Seeding List 2024/25, have the right to apply for one (1) upgrade for a maximum of one (1) team. The eligibility for the 2024/25 EHF club competition must be given.

This request must be presented to the EHF by the resp. national federation with the official application form not later than 11 June 2024. Following this request, the resp. club must fulfil all requirements (see point 5.2.2) as well as a detailed strategy/vision of the club for the upcoming EHF Champions League season by 11 June 2024.

5.5.2 Evaluation of upgrades

The EHF evaluates the clubs which correctly requested an upgrade to the EHF Champions League Men. Five (5) criteria will be taken into consideration. All criteria have the same value.

Catalogue of criteria:

- Venue
This criteria awards points by considering the overall standard of the venue for the matches. Important is not only the capacity of the venue, but also issues like court area, spectator's area, availability and standard of media facilities, VIP areas, etc. A better standard of the venue including the availability of the necessary facilities earns more points.
The points are jointly provided by the EHF Competitions and EHFM based on the situation of the venue and the experience around the carrying out of matches in this venue throughout the season.
- TV
This criteria awards points based on existing or potential Audio-visual contracts and information from market analysis.
- Spectators
This criteria awards points by considering the number of spectators at matches of EHF club competitions of this club in the past three seasons (23/24, 22/23 and 21/22). It is not only defined by the number of spectators, but also by the number of spectators in relation to the capacity of the venue.
The points are provided by the EHF based on the information available about the number of spectators.
- Results in past EHF club competitions
This criteria awards points by considering the performance of the club in EHF club competitions in the past three seasons. A better result in these three seasons earns more points.
The points are provided by the EHF based on the performance of the club over the past three seasons (23/24, 22/23 and 21/22).

- Product management and Digital
This criteria awards points by considering the marketing potential of the Advertising Rights, the level of professional organization of the club as well as the level of implementation of the respective requirements of an EHF club competition throughout the season including club's appearance online and on social media. When it comes to digital media, points are awarded depending on the club's efforts in the areas of social media, online presence, digital activation and media presentation. A good cooperation with EHF/M departments and a correct implementation of the regulations earn more points.

5.5.3 Awarding of an upgrade to the EHF Champions League Men
The EHF Executive Committee, based on a proposal of the EHF Evaluation Group, is entitled to award teams with an upgrade to the EHF Champions League. The awarding of an upgrade is decided following the evaluation of the respective criteria as laid down in the catalogue of criteria. (see point 5.5.2):
If a club is awarded with an upgrade, the respective national federation does not receive an additional place in the EHF club competitions (the total number of teams remains the same as indicated in the EHF place distribution 2024/25)

5.5.4 Wild Card to the EHF Champions League Men
The EHF has the right but not the obligation to award a maximum of one place in the EHF Champions League with a Wild Card instead of via the criteria procedure. The awarding of the Wild Card is to be proposed by the Evaluation Group and to be confirmed by the EHF Executive Committee. This awarding can only be done to a club that has requested an upgrade to the EHF Champions League.

The “full venue initiative” of the EHF requests the clubs to start initiatives in order to have as many spectators as possible at home matches. Starting with the 2023/24 each club has the responsibility to nominate a responsible person dedicated for this topic (see point 34)

41.1 General information

The issuance of tickets and the implementation of an accreditation system are within the competence of the clubs. An accreditation system for team members, the EHF/M sponsors, partners and suppliers, court personnel and EHF Officials must be introduced.

The EHF implemented an accreditation system for all TV and radio request. The clubs must inform the local media to use only this accreditation system for these requests.

The EHF reserves the right to implement an accreditation system for all remaining parties, based on a central database, handling the approval of accreditation requests. In case the EHF makes use of this right, the clubs must be informed beforehand in good time prior and additional information is to be provided. After an initial implementation phase all clubs are obliged to use this system.

Only people with the respective authorisation are allowed to access certain areas of the venue. Accreditations are to be used for working staff only.

Access controls must prohibit an uncontrolled movement of unauthorised people. Special access control must be provided for the playing court. Only EHF Officials, the team members, the club’s officials, the ceremony/event staff, the official photographer, the medical and security staff as well as a specific number of camera men/technical TV support, media representatives and other personnel having the approval of the EHF/M are allowed to be present next to the playing court during the match.

47.2 Media room

The home club shall create good working conditions for media representatives (TV, radio, written media, photographers) by providing a media room. This should be available in the media room (preferably in labelled compartments for ease of reference). Furthermore, the person responsible for media/TV/statistics must ensure that the match report and the official match statistics are also distributed prior to as well as immediately after the match in all relevant media areas, i.e. the media seats, the TV commentary positions, the media and the press room.

47.3 Media seats on the tribune

In the playing hall, a minimum of 20 seats during the group phase and a minimum of 30 seats for play-off and quarter-final matches must be available. All seats shall be equipped with working tables. The EHF reserves the right to request the installation of additional seats with working tables.

If possible, the seats are to be situated in the middle of the seating area. In any case the seats must permit clear visibility to the playing court. All players and coaches are obliged to pass through the mixed zone once they have left the playing court. The area should be separated into clear zones – walkway for the players and the section for the accredited media representatives. The zone for media representatives should be divided into four specific areas:

- area for TV rights holders,
- area for TV non-rights holders,

- area for radio,

All accredited media representatives should be provided with a plan of this area (including details of the routing) when they register upon arrival. The person responsible for media/TV/statistics should also inform the teams on the location of the mixed zone. Security staff must be well briefed on the restrictions in this area.

Adequate heating/air conditioning and sufficient light conditions shall be arranged to guarantee the best possible conditions for players and media.

Access for all media representatives which have a valid media accreditation must be granted. Spectators and court staff shall not have access to this area.

After the end of the match, TV and radio right holders as well as non-right holders and written media are permitted to conduct interviews in the mixed zone. Therefore, EHF will provide all clubs with a mixed zone backdrop. All TV/video interviews must be carried out in front of this backdrop. The distance from the camera to the player should be set up in a way that the backdrop is fully visible, but no surrounding. In case an individual format is needed by a home club, the respective design is done by EHF (see point 95.3).

Photography is not permitted in the mixed zone. Photographers may enter the mixed zone for editorial (i.e. writing) purposes only.

47.5 Flash zone

On request of EHF/M, a space to set up a flash zone shall be made available. The flash zone must be located at the playing court. Flash interviews can only be held during the half-time break and after the match by the host broadcaster and/or right holders with permission (see point 95.4).

47.5.1 Flash zone interview requests

On request of EHF/M and/or the right holders, a minimum of two players and the head coach of each team shall be available for interviews with the right holders at the playing court until 45 minutes prior to the match and right after the final whistle of the match.

47.6 Press conference/Post-match media activities

Starting with the group phase, a post-match press conference must be organised by the home club. However, in order to reflect national media standards and to facilitate the information gathering process for accredited media representatives, clubs participating in the EHF Champions League may opt for offering a different post-match media activity of equivalent value and content output to replace the press conference (see point 47.6.2).

The clubs are to be informed of their post-match media duties at the Technical Meeting. Head coaches and/or players who have been disqualified during the match, are not allowed to attend the press conference.

The EHF has the right to stipulate that a press conference or an equivalent media activity must take place prior to the matches.

47.6.1 Press conference

- The post-match conference starts 15 minutes after the end of each match. Changes to the starting time can be coordinated by both teams at the Technical Meeting.
- The teams' attendance is split. First attending is the guest team with its head coach and one key player. Immediately afterwards the home team with its head coach and one key player attends the press conference.
- The person responsible for media/TV/statistics (who may delegate this responsibility to a secondary person from the media team) must ensure that the head coaches and key players of each club appear at the agreed time at the post-match conference.
- The person responsible for media/TV/statistics (or another qualified person) shall act as a moderator and a translator (if required). The translator must have a sufficient understanding of the sport of handball and the terms being used. The moderator must announce the start of the press conference to all media representatives in the media room.
- The head coach and the key player must sit in front of the official press conference backdrop. If required, a moderator may also sit at the tables. The moderator interviews the parties involved – asking them to give a statement on the match and the floor is then given to media representatives for questions.
- The post-match press conference can be carried out in the local language of the home club, respectively the native language of the head coach/key player. However, at least the participants' initial statement on the match must be provided in English. The use of a translator is permitted. Following this initial statement, the post-match press conference may continue – if no additional questions in English are asked – in the local language of the home club, respectively the native language of the head coach/key player.

The press conference room must be equipped as follows (see point 95.5):

- Room: minimum of 30 sqm
- Lighting and sound system for TV recordings
- Minimum of 2 tables and 3 chairs at the front of the room
- Press conference backdrop
- Table banner
- Microphones (branded with microphone flags) on the table
- 1 portable microphone
- EHF/M sponsors, partners and suppliers table tags
- Name tags
- Beverages (water, etc.) on the tables
- Minimum of 20-30 chairs for media representatives

47.6.2 Post-match media activity

A club participating in the EHF Champions League may opt for an alternative media activity to replace the post-match conference. If the club opts to do so, the suggested alternative must be provided to EHF/M for final approval one week prior to the respective club's first EHF Champions League match of the season.

Any suggested alternative must fulfil the following requirements:

- The alternative media activity must be a live event, starting at the latest 15 minutes after the end of the match and accessible for the accredited media representatives including the possibility to ask questions.
- The presence of the competitions' official partners and the EHF Champions League brand must be guaranteed and correctly implemented.
- The home and guest club with the head coach and a key player, appearing either at the same time or after each other, must be present. Coaches and key players have to comment on the match.
- Head coaches and/or players who have been disqualified during the match, are not allowed to attend the post-match activity.

The final approval of any suggested alternative rests with EHF/M. If not approved, it is the club's duty to organise a post-match conference. If the alternative is approved, it shall be implemented at all home matches until the club exits the EHF Champions League. This notwithstanding, EHF/M reserves the right to introduce mandatory post-match press conferences for the knockout matches.

It is recommended that all post-match press conferences respectively the approved alternative are streamed live on the home club's social media channel(s). If post-match press conferences respectively the approved alternative are streamed live on the home club's social media channel(s), information on the dedicated streaming channel(s) must be sent to EHF/M one week prior to the respective match and/or competition phase. The channel(s) shall remain the club's primary social media channel for streaming of the press conference/the approved alternative. In case the club adds additional channel(s) or decides to change the channel(s) for the live streaming, it is obliged to inform EHF/M accordingly. It is the club's responsibility to ensure a sufficient technical setup (i.e. sound and light) which enables viewers to follow the press conference/the approved alternative online. Please find further information in the Press Conference Live Streaming Guidelines (see point 1).

Security personnel must ensure that there is no interference from the public.

80.4.10 Depending on the local conditions the set-up of a TV studio shall be feasible either courtside or integrated into the grand stand.

80.5 Multilateral feed production requirements

The host broadcaster produces EHF Champions League Men matches. Dedicated people within the home club are therefore required to cooperate with the production crew.

The filming may start with the teams' arrival at the arena and continue until their arrival in the changing rooms. Short recordings in the changing rooms may be done just before and/or after the match. Clubs shall support the access of the host broadcaster to the changing rooms.

EHF/M in cooperation with the host broadcaster will schedule interviews with players and coaches for domestic and international TV stations (see points 56.3 and 47.5.1).

In case the EHF/M and/or its sponsors, partners and suppliers make use of the right to carry out promotion activities in the venue and the surrounding areas prior to, during and/or after a match, the clubs will be informed in good time prior to the respective match. Upon request, the home club shall make available up to six (6) separate spots of 20 square metres in/around the venue for EHF/M. The officials of both teams, which were announced at the Technical Meeting, must wear these tags during the entire match.

95.9 Tickets

EHFM highly recommends using the ticket templates given in the EHF Design Guide, showing the corporate identity of the EHF Champions League Men.
